## CLASS C FUSES

Ferraz Shawmut Class C fuses have British standard (BS88) dimensions and are exact replacements for the British fuses and older HRCII-C fuses. Class C fuses are not dimensionally or electrically interchangeable with other North American fuses. They feature ceramic bodies and bolt-in mounting. They are for short-circuit protection only, in motor controllers, for example, where overload protection is provided by an overload relay.

### Approvals

- CSA Certified  
HRCII-MISC  
IEC269-2-1

### HIGHLIGHTS:

- BS88 Dimensions
- Fast-Acting

### APPLICATIONS:

- Short circuit and back-up protection of motor controllers and components
