Mains and Incoming Lines Dimension Reference

Document Update

Description

This publication provides updates to Mains and Incoming Lines Dimension Reference, publication 2100-4.2, dated October, 1998. Please place this document in your manual for future reference.

Introduction

Footnote **1** has been changed for all pages where found within the publication. The new footnote is to be:

- 1** Optional ground bus location. **Note** - The front face of the 1/4" ground bus is located at 7.25 [184] from the cabinet front. Incoming cable pull may not be correctly represented in the diagram.
