Combine the performance of high speed semiconductor fuses and the convenience of Class J branch circuit fuses in one package.

The new Cooper Bussmann® Drive Fuse will provide maximum protection for AC and DC drives and controllers and meet NEC® branch circuit protection requirements. The Drive Fuse has the lowest I²t of any branch circuit fuse to protect power semiconductor devices that utilize diodes, GTO's, SCR's and SSR's.

General Information:

- Easily coordinated with existing and new variable speed drives and electronic controllers.
- Standard Class J dimensions allowing the use of readily available fuse blocks, holders, and switches.
- Allows the lowest let-thru energy of any branch circuit overcurrent protective device.
